To check balance of SMS credits available

E X A M P L E :

```
http://www.inspirus.com.au/gateway/creditpost.cfm?user=username&pass=password&type=BG
```

FAQ:

Q: What to use for the From field?

A: The "from" field must be an identical match to the 'From' field that is setup by Inspirus when your account is opened.

If you wish to change this field at any time, please contact Inspirus and this will be done on request. Turnaround time is usually 1 hour.

Q: Is there a limit on the size of the message?

A: SMS is limited to 160 characters (ie 7 bit characters).

Any additional characters will be truncated.

We suggest you include a character limiting feature to ensure your messages do not exceed 160 characters.

Q: What characters are permissible?

A: The following characters are able to be sent via Inspirus SMS:

0123456789ABCDEFGHIJKLMN OPQRSTUVWXYZabcdefghijklmnopqrstuvwxyz\$@/?!#%&()*+,-;=>."'

A: What characters are not permissible?

A: The following characters are not able to be sent via Inspirus SMS and the entire message will remain unsent if these characters are included in the message:

~^_[]{} \ |

We suggest you include a character limiting feature to ensure your messages do not contain these characters.

Q: How many mobile numbers can be sent per HTTP Post?

A: To ensure efficiency each post should not exceed 80 mobile numbers.

If there are more than 80 mobile numbers to send, submit additional posts, with each post not exceeding 80 mobile numbers.

In many cases, clients will create a separate post for each mobile number. This will ensure that each message is treated separately.

If you have any further queries, please don't hesitate to call us on 03 9534 7899 or email us on info@inspirus.com.au
